

Tips and Bubble Tricks

Try dipping these items in the bubble solution. Mark the ones that work best!

- | | |
|---|--|
| <input type="checkbox"/> String tied in a loop | <input type="checkbox"/> A Straw |
| <input type="checkbox"/> Milk carton with both ends cut off | <input type="checkbox"/> Cookie cutter |
| <input type="checkbox"/> Wire Coat Hanger | <input type="checkbox"/> Paper clip |

Bubble Trick #1

1. Bend a pipe cleaner into a square.
2. Wrap the ends around the sides of the square to hold it together
3. Using a second pipe cleaner, fold it in half and loop it around one side of the other pipe cleaner square. Twist the ends to make a handle.
4. Dip the bubble blower into your Homemade Bubble Solution. Slowly, blow a bubble through it until the bubble comes loose from the wand. What shape is the bubble?

Bubble Trick #2

1. Set a lid on your table with the lip facing up.
2. Fill the lid with Homemade Bubble Solution.
3. Dip a straw into the container of Homemade Bubble Solution getting half of the straw completely wet.
4. Touch the straw to the lid and blow a bubble on the lid. Slowly, pull the straw all of the way out of the bubble.
5. Dip the pointed end of a pair of scissors (or any pointy object) into the container of Homemade Bubble Solution making sure it's completely wet.
6. Poke the pointy object through the wall of your bubble. Watch what happens.
7. Try this with other pointy objects, even your finger. Make sure that anything touching the bubble is wet with Homemade Bubble Solution. Can you pop the bubble?
