Chemical Product and Company Identification Section 1

HOME SCIENCE TOOLS

665 Carbon Street Billings, MT 59102 800-860-6272 www.homesciencetools.com

CHEMTREC 24 Hour Emergency USA Phone Number (800) 424-9300

1 703-741-5500 (from anywhere in the world).

For laboratory and industrial use only. Not for drug, food or household use.

Product AIVIIV	MMONIUM DICHROMATE
Synonyms Amm	nmonium Bichromate / Dichromic Acid, Diammonium Salt / Diammonium Dichromate(VI)

Section 2 **Hazards Identification**

Signal word: DANGER

Pictograms: GHS03 / GHS05 / GHS06 / GHS08 / GHS09 Target organs: Liver, Kidneys, Respiratory system

GHS Classification:

Oxidizing solid (Category 2) Acute toxicity, oral (Category 3) Acute toxicity, dermal (Category 4) Skin corrosion (Category 1B) Skin sensitization (Category 1)
Acute toxicity, inhalation (Category 2) Respiratory sensitization (Category 1) Mutagenicity (Category 1B) Carcinogenicity (Category 1B) Reproductive toxicity (Category 1B) STOT-RE (Category 1) Aquatic acute (Category 1) Aquatic chronic (Category 1)

GHS Label information: Hazard statement:

H272: May intensify fire; oxidizer

H301: Toxic if swallowed.

H312: Harmful in contact with skin.

H314: Causes severe skin burns and eve damage

H317: May cause an allergic skin reaction.

H330: Fatal if inhaled.

H334: May cause allergy or asthma symptoms or breathing difficulties if inhaled.

H340: May cause genetic defects.

H350: May cause cancer.

H360FD: May damage fertility. May damage the unborn child.

H372: Causes damage to organs through prolonged or repeated exposure. H400: Very toxic to aquatic life.

H410: Very toxic to aquatic life with long lasting effects.

Precautionary statement:

P201: Obtain special instructions before use.

P202: Do not handle until all safety precautions have been read and understood. P210: Keep

away from heat/sparks/open flames/hot surfaces. No smoking. P220: Keep away from clothing/incompatible/combustible materials.

P221: Take any precaution to avoid mixing with combustibles and incompatible materials.

P260: Do not breathe dust.

P264: Wash hands thoroughly after handling. P270: Do not eat, drink or smoke when using this product.

P271: Use only outdoors or in a well-ventilated area.

P272: Contaminated work clothing should not be allowed out of the workplace.

P273: Avoid release to the environment.

P280: Wear protective gloves/protective clothing/eye protection/face protection.

P284: Wear respiratory protection.

P370+P378: In case of fire: Use water to extinguish. P301+P310+P330: IF SWALLOWED: Immediately call a POISON CENTER or doctor. Rinse mouth.

P331: Do NOT induce vomiting.
P302+P352: IF ON SKIN: Wash with plenty of water and soap.

P362+P364: Take off contaminated clothing and wash it before reuse.

P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove

contact lenses, if present and easy to do. Continue rinsing.

P304+P340: IF INHALED: Remove person to fresh air and keep comfortable for breathing.

P308+P313: IF exposed or concerned: Get medical attention

P391: Collect spillage.

P403+P233: Store in a well-ventilated place. Keep container tightly closed. P405: Store locked up.

P501: Dispose of contents/container to a licensed chemical disposal agency in accordance with

local/regional/national regulations

Hazards not otherwise classified:

Health hazards not otherwise classified (HHNOC) - Not Known Physical hazards not otherwise classified (PHNOC) - Not Known

Section 3 Composition / Information on Ingredients								
Chemical Name	CAS#	%	EINECS					
Ammonium dichromate	7789-09-5	100%	232-143-1					

Section 4 First Aid Measures

INGESTION: TOXIC IF SWALLOWED. Call physician or Poison Control Center immediately. Induce vomiting only if advised by appropriate medical personnel. Never give anything by mouth to an unconscious person.

INHALATION: FATAL IF INHALED. Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.

EYE CONTACT: CAUSES EYE DAMAGE. Check for and remove contact lenses. Flush thoroughly with water for at least 15 minutes, lifting upper and lower evelids occasionally. Get immediate medical attention.

SKIN ABSORPTION: HARMFUL IN CONTACT WITH SKIN. CAUSES SEVERE SKIN BURNS. Remove contaminated clothing. Flush thoroughly with mild soap and water. If irritation occurs, get medical attention.

Section 5 Fire Fighting Measures

Suitable Extinguishing Media: Use water. Do not use dry chemicals or foams. CO2 or Halon® may provide limited control.

Protective Actions for Fire-fighters: In fire conditions, wear a NIOSH/MSHA-approved self-contained breathing apparatus and full protective gear. Use water spray to keep

Specific Hazards: During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion. In contact with easily oxidizable materials, this chemical may react rapidly enough to cause ignition, violent combustion or explosion.

Accidental Release Measures

Personal Precautions: Evacuate personnel to safe area. Use proper personal protective equipment as indicated in Section 8. Provide adequate ventilation.

Environmental Precautions: Avoid runoff into storm sewers and ditches which lead to waterways

Containment and Cleanup: Recover for reuse if not contaminated. Remove all sources of ignition. Sweep or vacuum up and place in a suitable container for proper disposal. Wash spill area with soap and water.

Page E2 of E2 Section 7 Handling & Storage

Precautions for Safe Handling: Read label on container before using. Do not wear contact lenses when working with chemicals. Keep out of reach of children. Avoid contact with eyes, skin and clothing. Do not inhale dusts. Use with adequate ventilation. Avoid ingestion. Wash thoroughly after handling. Remove and wash clothing before

Conditions for Safe Storage: Store in a cool, dry, well-ventilated area away from incompatible substances. Keep away from ignition sources.

Evaporation rate (Butyl acetate = 1): 7.7

Relative density (Specific gravity): 2.15

Solubility(ies): Appreciable in water (>10%)

Vapor density (Air = 1): 8.7

Flammability (solid/gas): Data not available

Vapor pressure (mm Hg): Data not available

Explosion limits: Lower / Upper: Data not available

Section 8	Exposure Controls / Personal Protection						
Exposure Limits:	Chemical Name	ACGIH (TLV)	OSHA (PEL)	NIOSH (REL)			
	Ammonium dichromate	Not established	Not established	Not established			

Engineering controls: Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower and fire extinguishing material. Personnel should wear safety glasses, goggles, or faceshield, lab coat or apron, appropriate protective gloves. Use adequate ventilation to keep airborne concentrations low.

Respiratory protection: None should be needed in normal laboratory handling at room temperatures. If dusty conditions prevail, work in fume hood or wear a NIOSH/MSHAapproved respirator.

Section 9 **Physical & Chemical Properties**

Appearance: Solid. Bright, red-orange crystals

Odor: No odor

Section 10

Odor threshold: Data not available

pH: Data not available

Melting / Freezing point: 170°C (338°F) Boiling point: Data not available

Flash point: Data not available

Stability & Reactivity

Chemical stability: Stable Hazardous polymerization: Will not occur. Conditions to avoid: Excessive temperatures, heat, sparks, open flame and other sources of ignition. Incompatible materials: Strong oxidizers, reducing agents, combustible materials, organic materials.

Hazardous decomposition products: Carbon oxides, nitrogen oxides, and ammonia.

Partition coefficient: Data not available Auto-ignition temperature: Data not available Decomposition temperature: Data not available

Viscosity: Data not available Molecular formula: (NH₄)₂Cr₂O₇ Molecular weight: 252.06

Section 11 **Toxicological Information**

Acute toxicity: Oral-rat LD50: 53.75 mg/kg; Inhalation-rat LC50: 0.156 mg/L/4hours; Dermal-rabbit LD50:1640 mg/kg

Skin corrosion/irritation: Data not available Serious eye damage/irritation: Eyes - rabbit - Severe eye irritation - Draize Test **Respiratory or skin sensitization:** May cause allergic respiratory and skin reactions. Germ cell mutagenicity: May alter genetic material. In vivo tests showed mutagenic effects.

Carcinogenity: Data not available NTP: Known to be a human carcinogen.

IARC classified: Group 1: Carcinogenic to humans. [Chromium VI compounds]

OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

CA Prop 65: A WARNING! : This product can expose you a chemical, Chromium [hexavalent compounds], which is known to the State of California to cause cancer, birth defects or other reproductive harm.

Reproductive toxicity: May cause reproductive disorders.

STOT-single exposure: The substance or mixture is classified as specific target organ toxicant, single exposure, category 3 with respiratory effects.

STOT-repeated exposure: Inhalation-rat: 1 mg/m³/2 H per day/1-6 months

Aspiration hazard: Data not available

Potential health effects:

Inhalation: Repeated or prolonged inhalation may cause asthma or nasal ulceration. This may result in perforation of the nasal septum. Symptoms may include burning sensation, sore throat, cough, wheezing, labored breathing.

Ingestion: Corrosive on ingestion. Symptoms may include nausea, vomiting, abdominal pain, burning sensation, diarrhea, shock or collapse.

Skin: Repeated or prolonged contact may cause skin sensitization. Symptoms may include redness, pain, and burns.

Eyes: Contact causes redness, pain, blurred vision, and severe deep burns.

Signs and symptoms of exposure: Hexavalent chromium compounds in the form of chromates and dichromates have been found to be mutagenic in bacterial and mammalian cells, including those of the Chinese hamster. Exercise appropriate procedures to minimize potential hazards.

Additional information: RTECS #: HX7650000

Section 12 **Ecological Information**

Toxicity to fish: Gambusia affinis (fish, fresh water), TLm = 136 mg/L/96 hours Toxicity to daphnia and other aquatic invertebrates: No data available

Toxicity to algae: No data available

Persistence and degradability: No data available Bioaccumulative potential: No data available Mobility in soil: No data available PBT and vPvB assessment: No data available

Other adverse effects: An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

Disposal Considerations

These disposal guidelines are intended for the disposal of catalog-size quantities only. Federal regulations may apply to empty container. State and/or local regulations may be different. Dispose of in accordance with all local, state and federal regulations or contract with a licensed chemical disposal agency.

Section 14 Transport Information (US DOT / CANADA TDG)

UN/NA number: UN1439 Shipping name: Ammonium dichromate

Reportable Quantity: 10 lbs (4.54 kg) Hazard class: 5.1 Packing group: || Marine pollutant: No

2016 ERG Guide # 141 **Exceptions:** Limited quantity equal to or less than 1 Kg

Section 15 **Regulatory Information**

A chemical is considered to be listed if the CAS number for the anhydrous form is on the Inventory list

A distribution to definite the first of the drift for the drift of the drift of the first the first for the drift of the drift of the first for the first for the drift of the drift of the first for the drift of th
