

Exploring Creation With Physical Science

Table of Contents

Module 1 : The Basics

Introduction	1
Atoms and Molecules	1
Experiment 1.1: Atoms and Molecules	1
Measurements and Units	8
The Metric System	8
Manipulating Units	10
Converting Between Units	12
Experiment 1.2: Cubits and Fingers	16
Concentration	18
Experiment 1.3: Concentration	18

Module 2 : Air

Introduction	1
The Air and Humidity	1
Experiment 2.1: Evaporation and Temperature	2
The Composition of Air	4
Experiment 2.2: Oxygen and Fire	6
Carbon Dioxide in the Air	7
Experiment 2.3: Carbon Dioxide and the Greenhouse Effect	9
Global Warming	12
Ozone	17
Air Pollution	19

Module 3: The Atmosphere

Introduction	1
Atmospheric Pressure	1
Experiment 3.1: Air Pressure	2
The Layers of Earth's Atmosphere	5
The Homosphere	7
What is Temperature?	11
The Temperature Gradient in the Homosphere	14
The "Hole" in the Ozone Layer	15
The Heterosphere	19

Module 4: The Wonder of Water

Introduction	1
The Composition of Water	1
Experiment 4.1: The Chemical Composition of Water	1
Chemical Formulas	6
Experiment 4.2: Water's Polarity	6
Water as a Solvent	10

Experiment 4.3: Water as a Solvent	11
Hydrogen Bonding in Water	13
Experiment 4.4: Comparing Solid Water to Solid Butter	15
Water's Cohesion	17
Experiment 4.5: Water's Cohesion	18
Hard and Soft Water	19
Module 5 : The Hydrosphere	
Introduction	1
The Parts of the Hydrosphere and the Hydrologic Cycle	3
Experiment 5.1: Evaporation, Condensation, and Precipitation	6
The Ocean	10
Glaciers and Icebergs	13
Experiment 5.2: Ice and Salt	13
Groundwater and Soil Moisture	16
Surface Water	18
Atmospheric Moisture	19
Experiment 5.3: Cloud Formation	19
Water Pollution	23
Module 6 : Earth and the Lithosphere	
Introduction	1
The Lithosphere	2
The Mantle	3
Experiment 6.1: How Sound Travels Through Different Substances	4
The Earth's Core	7
Experiment 6.2: Making an Electromagnet	9
Plate Tectonics	13
Experiment 6.3: A Model of Plate Tectonics	14
Earthquakes	17
Mountains and Volcanoes	20
Module 7: Factor's That Affect Earth's Weather	
Introduction	1
Factors That Influence Weather	1
Clouds	1
Experiment 7.1: A Long-Term Weather Experiment	5
Earth's Thermal Energy	6
Latitude and Longitude	10
Uneven Thermal Energy Distribution	11
Air Masses	17
Module 8: Weather and Its Prediction	
Introduction	1
Precipitation	1
Thunderstorms	6

Tornadoes and Hurricanes	9
Weather Maps and Weather Prediction	13
Interpreting the Results of Experiment 7.1	17
Experiment 8.2: Turning Experiment 7.1 Into a Weather Prediction Tool	18
Module 9: An Introduction to the Physics of Motion	
Introduction	1
Mechanics - The Study of Motion	1
Speed: How Quickly Motion Occurs	3
Velocity: Speed and Direction	5
Experiment 9.1: The Importance of Direction	6
Acceleration: The Change in Velocity	10
The Acceleration Due to Gravity	16
Experiment 9.2: The Acceleration Due to Gravity is Independent	17
Experiment 9.3: Measuring Height With a Stopwatch	20
Module 10: Newton's Laws	
Introduction	1
Sir Isaac Newton	1
Newton's First Law of Motion	2
Experiment 10.1: Two Inertia Experiments	3
Experiment 10.2: A Test to See How Well You Understand	7
Friction	9
Experiment 10.3: Friction	9
Newton's Second Law of Motion	13
Newton's Third Law	19
Experiment 10.4: Newton's Third Law	19
Module 11: The Forces in Creation - Part 1	
Introduction	1
The Four Fundamental Forces of Creation	1
The Gravitational Force	2
Force and Circular Motion	5
Experiment 11.1: Force and Circular Motion	5
The Gravitational Force at Work in Our Solar System	9
Comets	14
What Causes the Gravitational Force?	17
Experiment 11.2: The "Bent Space" Theory of Gravity	17
Experiment 11.3: The Graviton Theory of Gravity	20
A Brief History of Our View of the Solar System	22
Module 12: The Forces in Creation - Part 2	
Introduction	1
James Clerk Maxwell	1
The Electromagnetic Force	2
Photons and the Electromagnetic Force	5

How Objects Become Electrically Charged	7
Experiment 12.2: Making and Using an Electroscope	7
Electrical Circuits	12
Resistance	15
Experiment 12.3: Current and Resistance	16
Switches and Circuits	18
Series and Parallel Circuits	19
Magnetism	20
Permanent Magnets	21
Module 13: The Forces in Creation - Part 3	
Introduction	1
The Structure of the Atom	1
The Periodic Chart of the Elements	7
The Strong Nuclear Force	12
Radioactivity	14
The Dangers of Radioactivity	17
The Rate of Radioactive Decay	19
Radioactive Dating	21
Module 14: Waves and Sound	
Introduction	1
Waves	1
Sound Waves	4
Experiment 14.1: The Medium Through Which Sound Waves Travel	5
The Speed of Sound	7
Experiment 14.2: The Speed of Sound	7
The Speed of Sound in Other Substances	11
Sound Wavelength and Frequency	14
Experiment 14.3: Wavelength and Sound	14
The Doppler Effect	17
Experiment 14.4: The Doppler Effect	17
The Volume of Sound	19
Experiment 14.5: The Amplitude of a Sound Wave	19
Uses of Sound Waves	23
Module 15: Light	
Introduction	1
The Dual Nature of Light	1
Wavelength and Frequency of Light	5
Experiment 15.1: Seeing Different Wavelengths of Light	5
Reflection	9
Experiment 15.2: The Law of Reflection	9
Refraction	13
Experiment 15.3: Refraction of Light	13

Experiment 15.4: The “Magical” Quarter	16
Lenses	19
The Human Eye	21
How We Perceive Color	23
Experiment 15.5: How the Eye Detects Color	24
Adding and Subtracting Colors	25
Module 16: An Introduction to Astrophysics	
Introduction	1
The Sun	1
Nuclear Energy	8
Variable Stars	13
Measuring the Distance to Stars	15
Galaxies	18
An Expanding Universe	19
Summing It All Up	23
